**2008 Election Ads**  
**Radio Ad Replacements for GTA:SA**  
**By CrownVictoriaCop**  
**<http://www.crownvictoriacop.quotaless.com>**

This mod includes two radio clips – one from Barack Obama and one from John McCain – that will replace two of what I consider to be the “boring” ads in San Andreas.

Here's how to install this wonderful mod:

First, go to [http://pdscobar.home.comcast.net/gta/saat/GFS\\_Setup1.1.rar](http://pdscobar.home.comcast.net/gta/saat/GFS_Setup1.1.rar). Download and install the file.

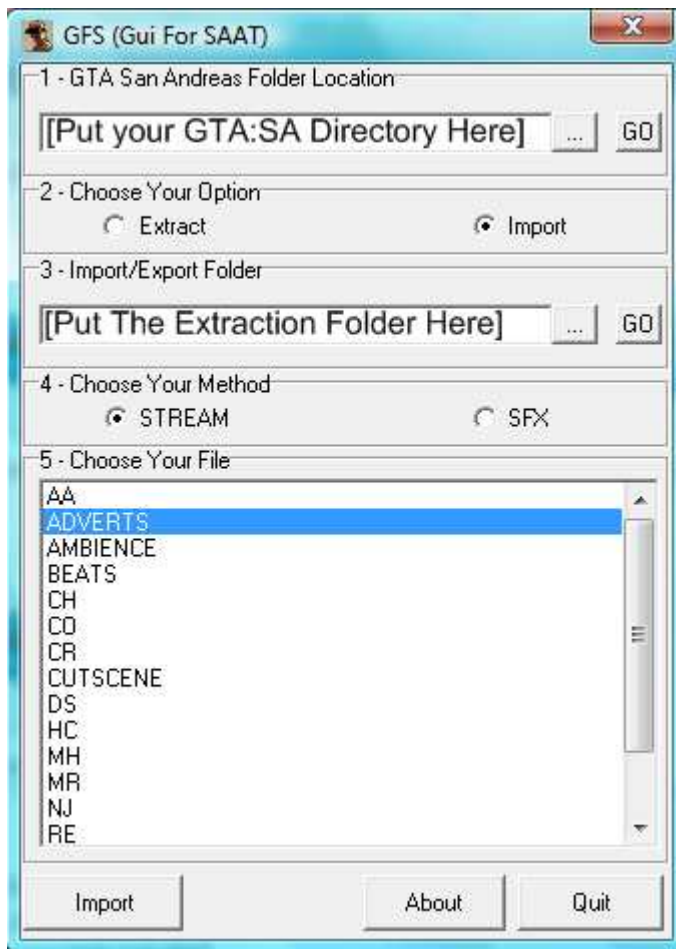

Then, open the GFS tool, and set your screen so it looks something like this, then click the Extract button.

In Windows Explorer, go to the folder you extracted the files to. Then, open "stream" and then "ADVERTS".

Move the two OGG files in this folder to that one.

Then, open the GFS tool, and set your screen so it looks like this, then click the import button.

After the operation has finished, close all windows and start San Andreas. The mod should be installed, and eventually, you should hear a John McCain or Barack Obama ad on the radio.

And that's it! Thanks for installing my mod!
